NL AND FOL

Natural Logic		FOL Prop	FOL Resolution
Premise (P)	=	KB (P)	KB
Hypothesis (H)	=	Query (H)	¬H negated Query

FOL Resolution

KB

¬H (negated Query)

↓

Apply Resolution

↓

Results in

Contradiction

Yes
then Entailment
(Valid)

No
Neutal / contradiction.

↓

Return Resolution for
KB , H (Query)

If not a contradiction from KB, ¬H, then create new FOL Resolution config :-

KB

¬H (Query)

↓

Apply Resolution.

↓

Contradiction

No

Neutral or Entailed.

Yes

NLI ~~Neutral~~ Contradiction

~~If Both KB∧A KB∧A~~

If both KB ∧ ¬H and KB ∧ H yield no empty clause, then its neutral.
